2.15 Plan of Action by IQAC/Outcome

The plan of action chalked out by the IQAC in the beginning of the year towards quality enhancement and the outcome achieved by the end of the year *

Plan of Action	Achievements
Automation of college library will be taken up on priority basis and HED will be approached for granting approval to the college for meeting the expenditure of the automation from local fund.	Digitalization of the library books has been started and the college is awaiting the approval from the HED for making expenditure on account of Library Automation.
The Ho'nble MP Udhampur, Ch. Lal Singh will be requested to grant funds for the purchase of new college bus from his MP LAD Fund as the old bus has been declared not worthy of plying on the road. This will fulfill the long pending demand of the students who are facing transportation problem for commuting to college daily.	The Hon'ble MP Udhampur, Ch. Lal Singh, was approached for grant of funds for the purchase of new college bus, which he gladly agreed & the new bus has been purchased and is plying for ferrying the students to & from the college.
The old desks, most of which are in a dilapidated state and uncomfortable for students to sit, shall be replaced by new comfortable customized desks in a phased manner. The installation of customized desks will accommodate more students in the class and shall provide a better ambience to the classroom.	A proposal for the purchase of customized desks has been sent to the HED for approval and sanction of funds.
LCD projectors will be purchased & installed in the classroom for enhancing the use of ICT in the Teaching- Learning process.	Sanction of grant for the purchase of more LCD projectors from the HED is awaited.

The college will organize atleast one national level seminar/ conference during the academic session 2012-13 for giving impetus to research & renovation and also becoming a lead college in this field.	Two national level seminars have been organized during the current academic session which were attended by large number of teachers, researchers and students from the state & outside the state.
the college shall publish the second volume of in house science journal, The Biosphere for which a wide publicity shall be given for getting quality research paper.	The second issue of journal, Journal of Biosphere has been published and widely accepted and appreciated across the state for being a standard and quality science journal.
The college annual magazine 'Ravi' shall be published before the start of the new admission so that it is made available to all the students at the time of admission.	The college magazine 'Ravi' and IQAC newsletter have been published.
The IQAC college newsletter shall be published and will cover all the events and activities that take place in the college ending April 2013.	
The play ground of the college where major outdoor games are played, shall be levelled as presently it is uneven and not play-worthy.	The main play ground of the college was levelled and beautified by spending of Rs. 17.8 lacs sanctioned by the local MLA out of the MLA LAD fund.

- (iii) To provide the faculty and students in hand training of holding an event.

3. The Context

The seminars and talks provide us a platform for the interaction with the experts of a particular field. This interaction paves way for new thoughts and research thereof. Students are made aware of different burning issues and sensitized for putting their view and developing new ideas. These discussions also help us to know about the latest research done in that particular field, so one can plan a study and do research as Ph. D. scholar or send a proposal for minor and major projects thereafter. Organizing seminars/conferences/talks also provide the stakeholders, faculty and students, an in hand opportunity and practice of managing or holding an event.

4. The Practice

To organize conferences/seminars/talks is not a regular practice in most of the institutes in India, especially in institutes which are situated in far flung areas or rural areas. This college of Jammu and Kashmir is doing excellent job in organizing conferences/seminars/talks of National level on regular basis. In these seminars we take up important issues like global warming, climate change, higher education etc. Such events of national level enable us to bring experts of these fields to this semi-urban area and provide exposure to the faculty and students of the college. The data and research shared by the experts helps the stakeholders to improve their knowledge and plan future research.

The main constrain and limitation of holding such events is the non-availability of a good number of quality experts.

5. Evidence of Success

Govt. Degree College is basically an Under Graduate (UG) institute with only one Post Graduate (PG) course in Geography. But a good number of students opting for PG in various Universities of India and also pursuing research in different subjects (exact data not available) are signs of success in sensitizing these students by organizing such events (conferences/seminars/talks). A good number of faculty members going for Ph. D. is another positive sign in this respect.

Other than these evidences, the overwhelming participation of the students in various social issues like swachh bharat abhiyan, polythene eradication drives, fight against open defecation etc. also proves that they are enlightened and motivated by organizing these events.

6. Problems Encountered and Resources Required

The main problem of holding such events in this college is non-availability of a good number of quality experts and participants. As the college is situated about 90 Km from the nearest airport, generally the organizers face some problems on account of non-acceptance by the desired resource person and participants.

Best Practices- No. 2

1. Title of the Practice

Organizing picnics, subject tours and educational tours on annual basis.

2. Objectives of the Practice

The outdoor activities are carried out with following objectives:

- (i) To provide the practical knowledge about the local and national areas.
- (ii) To improve the cultural knowledge of the state in particular and nation as a whole.
- (iii) To impart the holistic knowledge about a particular subject topic.

3. The Context

There are a number of things and concepts which we learn and understand through practical knowledge. Moreover, the things taught in the classroom are generally implemented or practiced in the outdoor world. So the events like picnic, subject tours and educational tours provide an opportunity to understand various concepts which we learn in the classroom. In addition to this, these events provide a chance to the students and members of the faculty to interact with each other and have a discussion about any issue like banning of polythene, encroachment, hygiene, developmental activities, conservation of natural resources, impact of climate change etc. related with that spot or area or the nation. Educational tour is generally an event of about 15 days in which the students visit several important historical places of the country. Students learn numerous things about the various cultural practices of states they visit, ancient architectures they see and development they observe.

4. The Practice

Picnics are part of almost every higher education institute of India. The visit of local and nearby areas helps us to know about the local diversity and observe the changes taking place with time and development. Subject and education tours are something which is not a common event for most of the colleges and this makes our institute special. Regular subject and educational tours provide the students overall information about the various topics discussed during the trip. The students know about the local vegetation, seasonal flowers, rocks, minerals, rivers, seasonal streams, industries, industrial pollution etc. These visits enhance their understanding about the topic and impart a life-long experience of the student. These tours also provide a platform for interaction between students and teachers, and the locals and workers of the area they visit.

5. Evidence of Success

The exposure which students get after attending picnics, subject tours and educational tours help the student in their holistic development. These events impart the practical knowledge and strengthen their understanding about the classroom teaching. The impacts of organizing these events are evident in the form of very good academic results of the college, good participation in social activities like awareness campaigns, swachh bharat abhiyan, yoga day celebrations etc.

6. Problems Encountered and Resources Required

Picnic and subject tours are organized with the nominal fee submitted by the student and local funds available with the institutes. But, for educational tours students have to pay heavily which deprives a number of poor students from attending these events.
